

# GETTING ALMOST ALONG WITH ANYBODY

This 2-day programme has been customised to meet the following objectives.

This programme uses a simple profiling tool from U.S.A. called Personality Plus © to enable participants to understand themselves and others in order to get along with almost anybody.

The team will begin to understand the behaviour and emotions of their colleagues in order to use the right approach to work well with them. This in return will enable them to contribute effectively to the organisation in terms of building strong and motivated teams in order to meet targets set.

They will also demonstrate persistence when resolving work problems in order to push through for solutions and improved ways of achieving results.

Games and activities will be used throughout this programme to enable the participants to learn through their experience and to have FUN at the same time.
